Updated: Wed, 31 Aug 2022 14:30:44 GMT

### Applies to

- SnapDrive for Windows (SDW) 7.1.5
- Microsoft Windows Failover Cluster

### Issue

- Trying to connect LUN getting access is denied in SnapDrive
- SDW UI error: `VDI disk object for the LUN s/n '<lun_id>' has not being found`

## Cause

N/A

## Solution

On the active Microsoft Cluster node open PowerShell Admin Prompt and type:

```
Grant-ClusterAccess <SnapDrive_service_user> -Full
```
